visual representation	definition:	definition	visual representation
	The 4 main points of a compass; North (N), South (S), East (E), West (W).	An imaginary line of latitude at 0 degrees drawn around the earth dividing earth into northern & southern hemispheres.	
	The meridian at zero degrees longitude; all longitude is measured based on the Prime meridian.	A half of the earth, usually as divided into northern and southern by the equator, or into western & eastern by the prime meridian.	
	Ranges from 0 at the equator to 90 (N or S.) and runs east to west parallel to the equator.	The distance of a place east or west of the prime meridian at Greenwich, England.	
	A large landmass on the Earth's surface and surrounded by water.	A very large area of water.	
	Explains the symbols used on a map.	A smaller map featured on the same page as the main map. They are shown at a larger scale than the main map.
